# Sustainability Program

## WORKING TOWARDS A MORE SUSTAINABLE WORLD

In 1992, Grecotel became the first Mediterranean hotel group to undertake eco-audits in its hotels according to EU standards and formed an Environment and Culture Department.

Grecotel Sustainability program "**GRECOTEL ECO**" is one of the basic operating standards for all Hotels of the Group. It contains key areas aimed at protecting the Environment, highlighting local communities and strengthening the economy.

The basic ideology of the program is the "**Think global Act Local**".

# THE GLOBAL GOALS

WORKING TOWARDS A MORE SUSTAINABLE WORLD

The Sustainable Development Goals (SDGs), also known as Global Goals, are a set of **17** integrated and interrelated goals to end poverty, protect the planet and ensure that humanity enjoys peace and prosperity by **2030**.

**GRECOTEL** is developing, in all its hotels, environmental programs based on the fundamental commitments made regarding its sustainable development for 2030, to **minimize its environmental footprint**. We aim to provide high quality services while respecting both the environment and the local communities.

# Welcome note from General Manager

"A beautiful environment  
starts with you."

For tourism industry, 2020 and 2021 were detrimental to our operations. Despite the enormous hurdles we faced, we remained committed to maintaining a laser-like focus on our sustainability initiatives.

In Greotel, the largest hotel chain in Greece, we believe that the quality of our hotels is equal to the quality of the **holidays'** environment. By developing Environmental Management and Sustainability procedures, the hotel defines all the environmental aspects of its operations and has established policies and programs that aim to continuously improve its performance and results.

This report reflects the best examples of our company and areas of growth. This report represents a first step in our journey to becoming an even more sustainable company. You will hear and see a lot more from us in the coming years as our efforts will continue.

Thank you for spending some time to have a look at our Sustainability Report and his opportunity to learn more about Greotel Amirandes.

# Zero Carbon Emissions

---

The drastic reduction of carbon emissions presents an urgent need for our economy and climate. For this reason, at GRECOTEL, as leaders in hospitality in Greece and Mediterranean, we recognize our duty not only to reduce our carbon footprint, but also to influence the hospitality industry towards a net zero economy.

Our primary source of emissions is from the operation of our hotel, Grecotel Amirandes. We saw a large drop in 2020, owing primarily to lower occupancy and entire or partial temporary suspensions of properties.

Our employees were encouraged to use operational best practices such as partial building shutdowns, variable plant load operation, and strengthened building controls to save energy and carbon emissions when occupancy was low. At Grecotel Amirandes we encourage suppliers to set goals around reducing their environmental and social impact.

## THERE IS NO PLANET B

*Fighting  
Climate Change*

We recognize climate change to be a critical threat to our planet, our communities and our business, and we've made combatting it a top business priority.

# Environmental Program

Greotel Environmental Program was used as an example in the publication Agenda 21 for the Global Travel & Tourism Industry. It includes activities inside and outside the hotels and it focuses in **4 Key Performance Indicators (KPI)**:

**01. Energy**

**02. Water**

**03. Waste & Recycling**

**04. Chemicals**

2022

OUR EFFORTS  
CONTRIBUTE TO  
THE SUSTAINABLE  
DEVELOPMENT  
GOALS:

# Energy

2.126.104 kWh

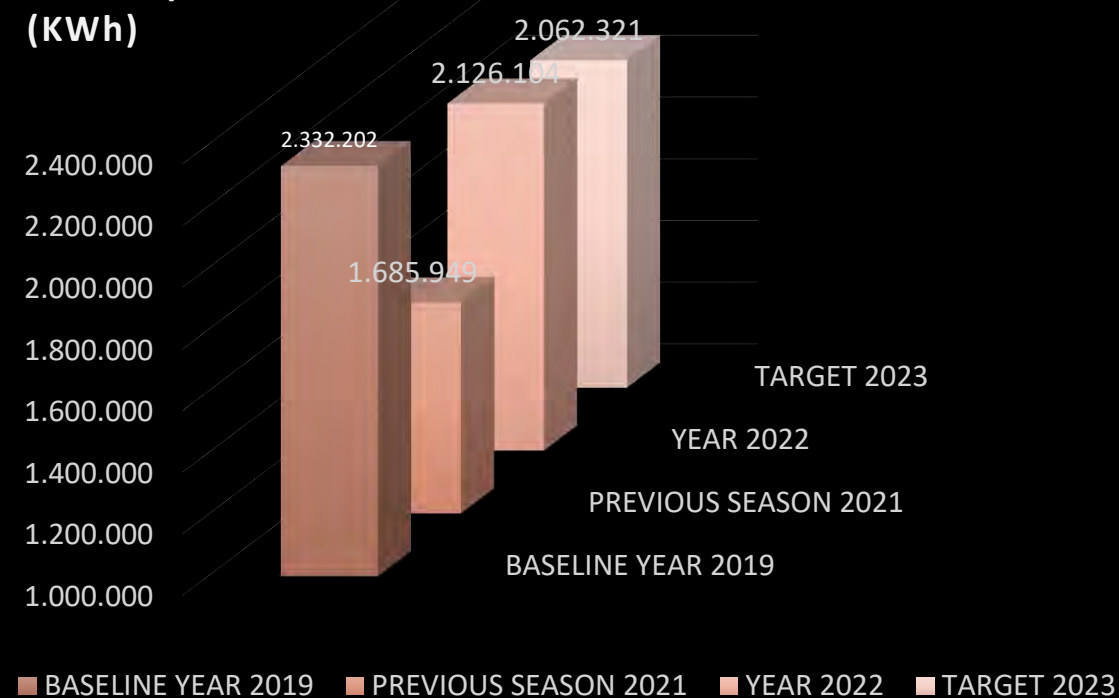

## Efficient use

Energy consumption is the main contributor to direct and indirect GHG emissions which affect the climate change. By creating the necessary infrastructure and using the latest available technology in energy management, we endeavor to reduce our energy consumption and maximize the use of renewable energy. Advanced materials and systems are installed in the buildings to reduce energy consumption. These include:

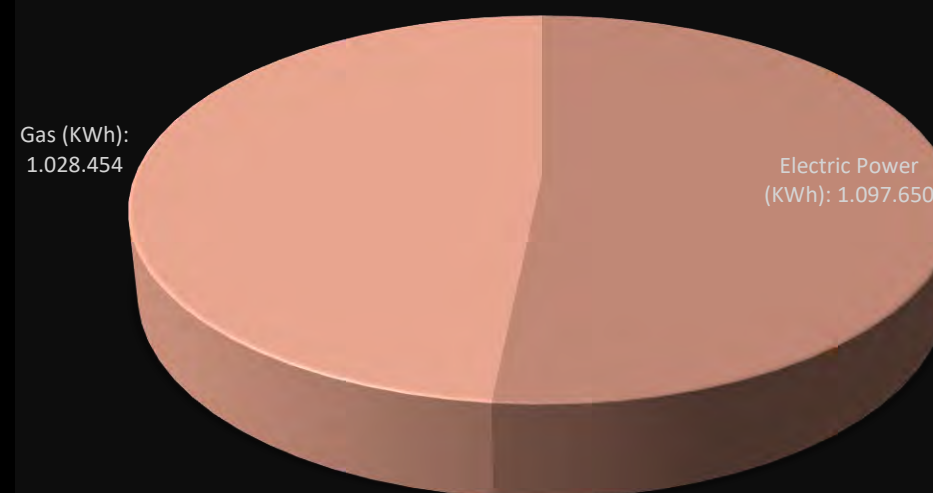

- Energy-efficient window panels.
- A high-quality, external wall insulation system that significantly reduces energy losses by wrapping the building in a thermally resistant envelope.
- Low energy technology lighting.
- Electronic lighting ballasts.
- Central lighting control systems.

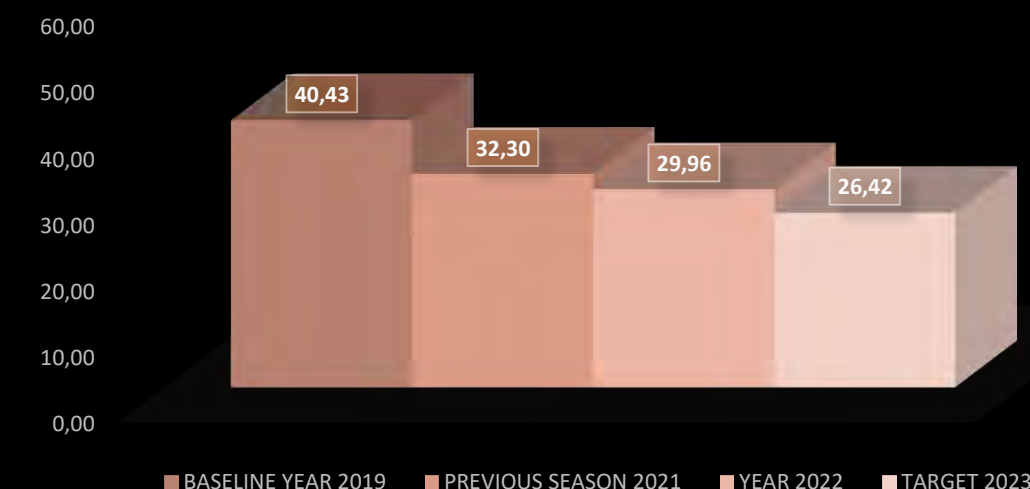

**Annual Energy consumption (KWh)**

**Annual Energy Consumption per Source**

**Annual Energy consumption per accommodation**

# Energy Reduction

- Hotel operations are aligned with best practice energy management techniques and technology.
- The Greotel Amirandes Green Goal is to improve the energy efficiency of the buildings and minimize energy consumption year after year.
- Greotel Amirandes continues to train all staff in energy and carbon management in order to decrease energy use.

In 2022, energy consumption was reduced by almost 10% compared to 2019. In addition, energy intensity was reduced by 26%. All measurements began in May and ended in October.

# Energy Consumption

Based on the average energy usage (gas consumption in liters per guest and energy consumption in kWh per night), there are three categories of hotels in Greece, according to applicable legislation and statistics:

- A hotel is considered an energy “diamond” for average consumption of up to 0.30 liters of gas per guest and up to 16 kWh of average electricity consumption per guest.
- Very good to excellent for average energy consumption of up to 0.70 liters of gas per guest and 24 kWh of average electricity consumption per guest.
- From 0.70 liters to 0.90 liters of average gas per guest and 25 - 30 kWh of average electricity consumption per guest, the hotel is considered energy-intensive and requires energy saving interventions.

In 2022,  
Grecotel Amirandes’ energy consumption was:

2

liters

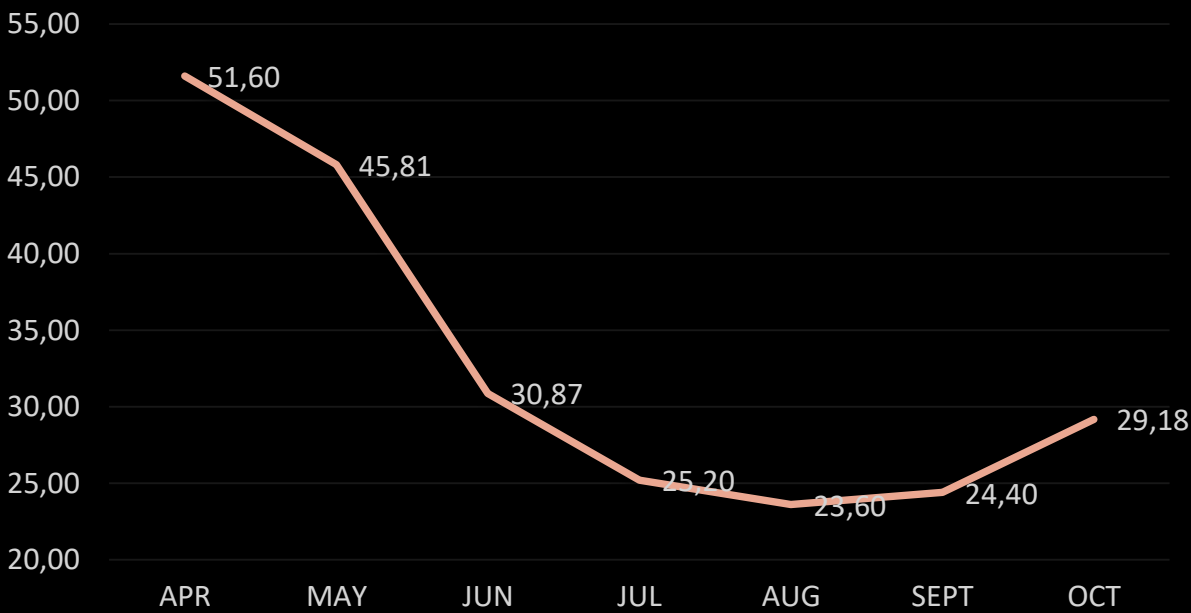

of average gas  
consumption per guest

15,5

kWh

of average electricity  
consumption per guest.

MONTHLY ENERGY CONSUMPTION PER GUEST DAY

MONTHLY ENERGY CONSUMPTION

# Energy Assessment

Grecotel Amirandes has proceeded with investments, aiming to the efficient use of energy. Specifically:

- Obtain increased efficiency through proper maintenance of the Cooling system.
- Use natural cooling techniques.
- Use Night ventilation techniques, ceiling fans.
- Use super metal halide fluorescent lamps.
- Use electronic fluorescent ballasts.
- Electric magnetic keycards for the automatic interruption of lighting and electrical appliances .
- Use improved luminaries.
- Motion sensors, timing devices.
- Use daylight effectively within the building.
- Public awareness and communication.
- Use high-efficiency equipment when replacing old equipment throughout the hotel.
- Use Solar panels in order to heat the water.
- Provide information and reminders for guests and staff.

The main energy consuming consumption sources in a hotel are:

- cooling rooms
- lighting
- hot water use and other energy consuming activities by guests
- preparing meals
- laundry
- swimming pools
- other

■ Airconditioning      ■ Lighting  
■ Kitchen and Laundry Equipment      ■ Warm Water Boilers  
■ Maintenance

The relative importance of the different energy end-uses is described as follows: Air conditioning (heating/cooling, ventilation), accounting for approximately 24% of the total consumption. Hot water usage is the second largest user, accounting for up to 28% of the total energy demand. Such as catering and laundry also account for a considerable share of energy consumption, (15%). Finally, 5% is used for lighting.

# Water Reduction

## ENVIROMENTAL RESPONSIBILITY

Water scarcity is a recognized global problem, with demand for water projected to exceed supply by 40% by 2030. At Greotel Amirandes we recognize the value that water has for both human life and nature. The Greotel Sustainability Program places great emphasis on water conservation, actively demonstrating this way our commitment to environmental protection through the conservation of both aquatic and marine ecosystems.

OUR EFFORTS CONTRIBUTE TO THE SUSTAINABLE DEVELOPMENT GOALS:

# Water

The implementation of a sustainable tourism development is directly linked with the availability of water resources.

We continuous efforts are made to reduce water needs. Greotel Amirandes following all the national and international legislation ensure that the source of the water does not affect the local supply or local environment in any way.

All wastewater, including rainwater are disposed of in a controlled way in order to protect areas lying outside the boundaries of a property from becoming contaminated by water, chemicals, pollutants, effluent and other materials.

## Water Highlights for 2022

Our water use decreased in 2022 compared to previous years. The implementation of prompt and efficient leak detection and repair measures resulted in a significant reduction in water consumption, attributable to the resolution of previously undetected leaks.

# 100%

of the rooms have  
water reduction filters

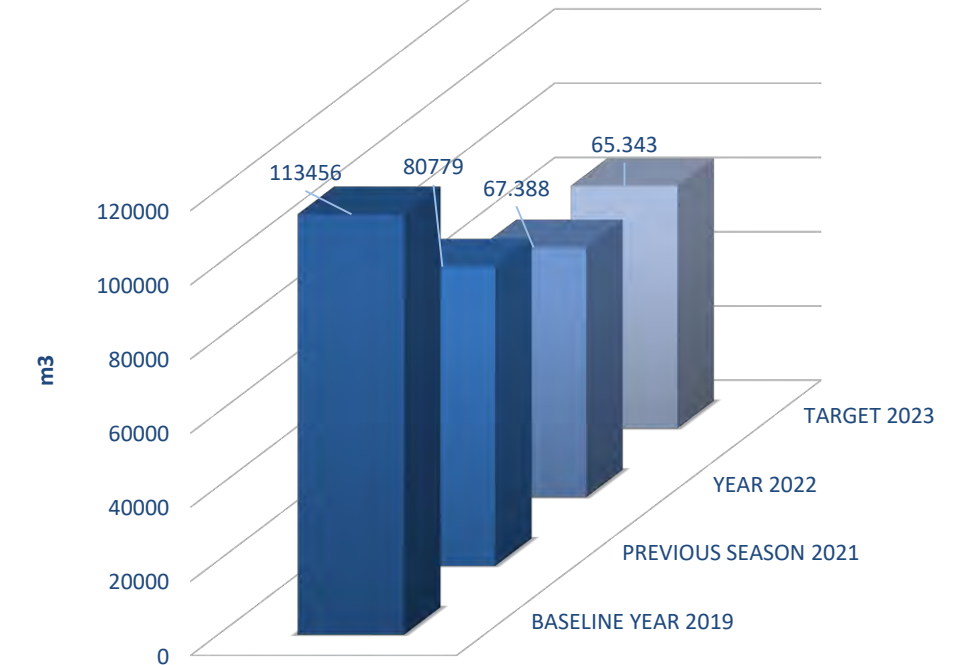

The quality of water is monitored in cooperation with accredited laboratories.

## WATER - SAVING MEASURES

Below you can see the most important actions taken in order to reduce the Water consumption:

- Linen & Towel washing reduction policy.
- Water reduction filters to all taps of the hotel.
- Double tank toilet flushes.
- Regular maintenance to prevent leaks.
- Automatic night watering the green areas and the organic fields of the hotel.
- Application of drip irrigation systems and underground irrigation systems with reduced water evaporation.
- Run the washing machine only with a full load.
- Desalination/reverse osmosis and filtration units.
- Taps in kitchens have a maximum flow of 10 litres per/min.
- We give the opportunity to our guests to reduce the water consumption (Water reduction info material in all rooms).
- We communicate and educate the management's commitment for water reduction and goals to all employees.

## Annual Water Consumption

## Monthly Water Consumption

A series of water-saving measures have been applied, based on best available practices that focus on consumption monitoring (e.g. leak control, improved efficiency), including educational programs for visitors.

# Water Assessment

The first step was to start measuring water consumption and set some tangible targets. It's vital to know our starting point (baseline year) and find out how much water is consumed and how it is divided among the various uses such as in the guest rooms and common areas.

The main water consuming activities in a hotel are:

- Guest Rooms (30%)
- Kitchen (10%)
- Laundry (15%)
- Gardens (20%)
- Restrooms & public toilets (3%)
- Rest (HVAC, Pools etc) (22%)

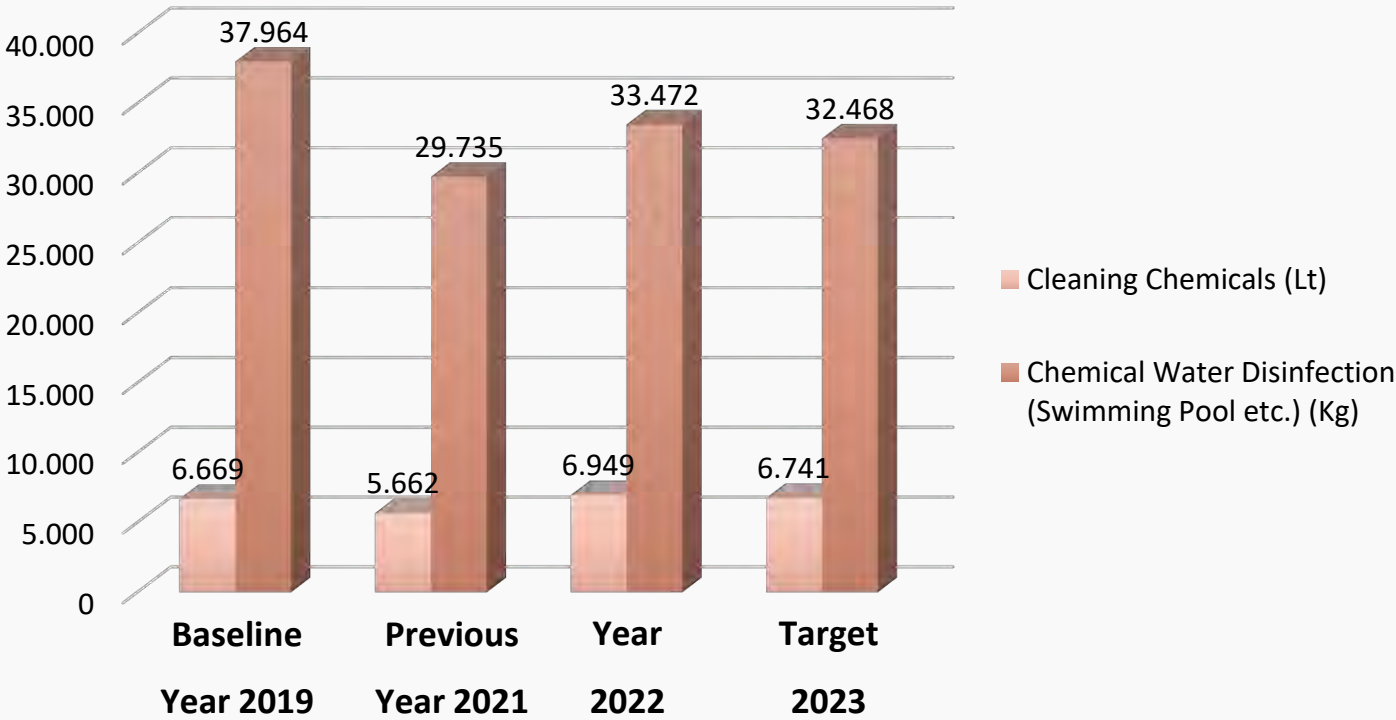

# Chemical Use

## USE OF ENVIRONMETALLY FRIENDLY CHEMICALS

Driven by a high sense of environmental awareness, Greotel Amirandes chooses to use certified cleaners and chemicals, with environmentally friendly specifications regarding both their packaging and composition. This way we achieve a great balance of cleaning effectiveness along with environmental protection. Furthermore, we apply a new model of alternative gardening, avoiding the use of chemical fertilizers and pesticides, further emphasizing the statement that the safety of our guests, our partners and the natural environment is a top priority for us.

All chemicals used are evaluated in terms of sustainability criteria and are applied with dosage systems in order to ensure efficient usage.

Consumption is **monitored on a monthly basis** and is measured with a guest per night indicator.

Frequent staff training for proper use.

# Waste Management

Waste management is an integral part of our waste management policy, as **Grecotel** actively contributes to a more circular economy. **Aiming to become a Zero Waste company**, we have developed and implement an integrated waste management strategy that results to waste elimination through waste cross utilization and recycling.

We ensure that all operations and activities at Grecotel Amirandes are in compliance with all current national waste management regulations. At every stage of our operation, we are devoted to reducing waste output by applying reduction, training, and recycling approaches.

OUR EFFORTS CONTRIBUTE TO THE SUSTAINABLE DEVELOPMENT GOALS:

## WASTE MANAGEMENT SYSTEM

### PREVENTION

**Disposable products and unnecessary packaging are avoided** to be bought. Priority is given to more durable/long-lasting products. Purchase of recyclable goods.

### REDUCE

At Grecotel, we're committed to helping the world end the ocean plastic crisis. Most effective ways to **reduce waste is by reusing everyday items**. In each room we provide our guests with a reusable canvas bag.

### REUSE

We are **donating materials** to churches and to local community. We reuse paper that has been printed only on one side. We also **upcycle items** that no longer serve their original purpose into DIY crafts.

### RECYCLE

**Recycling** of glass, cardboard, paper, cooking oil, soap, metal, aluminum, batteries, medicines and electric utilities, **through private special waste contractors**. Recycling of plastic, paper, aluminum and textiles, through the **municipality waste system**. **Composting** of vegetables, fruits, grass cuttings and garden waste within the company's grounds.

### MONITORING

Performing of **regular monitoring** of waste in order to ensure that the waste minimization strategy results to **reduced amounts of waste** disposal each month.

PROMOTE GUESTS PARTICIPATION

Customers can help the Waste management plan by keep saving our environment by always using the recycle bins

PROMOTE EMPLOYEES PARTICIPATION

Through training and support, ensure that all staff are aware of their responsibilities under Grecootel environmental policy and how compliance can be achieved and maintained.

- Employees are required to:
- become familiar with the type of waste and their appropriate handling and disposal methods and
  - adopt the procedures for waste separation using the correct color-coded bags and bins.

WASTE MANAGEMENT MEASURES

- In Grecootel we separate waste according to local authority guidance.
- Waste prevention in all departments and throughout supply chain.
- All quantities are reported annually.
- The hotel’s liquid waste is treated in the wastewater treatment plant.
- Chemical and microbiological analyses of water are conducted by laboratory.
- All the refrigerant substances used in the hotel are ozone friendly.

Recycling streams for Grecootel Amirandes:

2022	kg
Cooked Oil:	540
Glass:	13620
Plastic:	1768
Paper/Packaging:	5423
Batteries:	97
Metal:	740
Appliances:	533

55%  
waste diversion rate from  
landfills (non-hazardous waste)

FOOD WASTE

- One third of all food produced is wasted each year. This issue is a priority for our sustainability program.
- Fighting Food Waste in Grecootel Amirandes:
- Food measurements / analysis.
  - Informing visitors and staff.
  - Actions were taken to reduce waste.
- Our hotels are taking primary steps to avoid food waste at source by reducing overproduction through better planning, storage and handling. We also take secondary steps to recycle unavoidable food waste through energy recovery and composting.

# Plastic Free

## LIFE FREE of PLASTIC

With an increased sense of environmental responsibility and the desire to contribute towards a more sustainable travel experience, Grecootel Amirandes implements a plastic-free hotels program, with the aim to reduce the use of all plastics, while promoting the use of reusable, recyclable and more environmentally friendly materials.

Every year plastic audits are conducted in order to identify areas for improvement. Waste prevention in all departments and throughout the supply chain. Grecootel introduced the plastic initiative which aims to ban the use of single used plastics (EU list) and reuse or recycle all plastic packaging.

# Hazardous Substances Usage

The environment is totally affected by the hazardous substances. Greccotel Amirandes keeps a list of all hazardous substances used (e.g. chemicals, hazardous materials, light bulbs, batteries, ink/toner cartridges etc.).

All hazardous substances are used safely according to the manufacturer instructions and are stored safely, in line with national and international standards. Chemical are disposed safely, in line with national and international standards and collected by a fully licensed contractors.

The usage of chemicals is limited and only from special trained staff members. All the employees receive an annual training regarding the correct use of the chemicals (quantity, required Personal protective equipment) and the possible harmful effects.

By applying new practices for a more sustainable gastronomy, we are committed to reducing both food waste and the raw materials used to produce them. We focus on developing a culture based on sustainable practices through effective staff training and awareness campaigns, aiming to deliver sustainable gastronomy menus that combine authentic flavors with respect for the environment.

# Sustainable Gastronomy

For decades, Greco Hotel Group was the first to introduce authentic high-quality organic products in the restaurants of its hotels, establishing this way a powerful link with the local agricultural production.

## HEALTHY & SUSTAINABLE NUTRITION

Sustainable nutrition is key to achieving the optimal development and holistic health for people, through the support and promotion of their physical, mental and social well-being.

At Greco Hotel Group Amirandes we emphasize both at reducing the risks associated with nutrition, while at the same time actively supporting the conservation of biodiversity and holistic health, of the present and future generations.

Greco Hotel Group Amirandes' guests have the exclusivity to taste organic products and meals in "Xasteria" Restaurant, which in 2020 offered approximately 3,865 meals of high nutritional value and quality.

Generally, its purchases' rates for the year 2020 were:

- Crete: 66%
- Greece: 33%
- Imports: 1%

Which means that it has contributed to the national and local economies with 634.477 euros.

# From Farm to Fork

High quality food can go hand in hand with limited impacts to the environment. At Grecohotel Amirandes we are committed to helping our guests acquire healthier eating habits while at the same time reducing the impact that the food production activities have on the environment.

## SUSTAINABLE SUPPLY CHAIN

The integration of the most important environmental and social parameters in our supply chain is one of the most crucial pillars of sustainability. For this purpose, Grecohotel Amirandes evaluates its partners against quality and corporate responsibility criteria, and sources certified sustainable products, achieving this way the development of sustainable and responsible local supply chains.

In any negotiation with the supplying company, we inform them about our environmental policy, and we ask them to inform us about the various environmental-friendly products on offer.

We give priority to products from the local markets, if they meet the requirements and basic needs of the company.

# Conservation of Biodiversity

At Greotel Amirandes, we have developed partnerships with a series of organizations (e.g. with NGOs like ARCHELON, WWF), aiming to protect and preserve ecosystems, while also raising awareness between our guests and employees.

---

## Experience & Activities

Eco-learning programs for guests, available to children at the Grecoland Club, give younger guests the opportunity to learn about the local biodiversity, including turtles, birds and flowers, as well as local customs and products. In the weekly program, there is a blue day and a green day.

# Animal Protection

Animal welfare is included in our discussion of sustainability because of the fundamental importance of respecting other living creatures.

We avoid putting further pressure on endangered species or supporting environmentally harmful production.

## ECO-LEARNING PROGRAMS FOR GUESTS

We invite our guests to explore the unique biodiversity and visit the onsite herb gardens.

# Garden

**To plant a garden is to believe in tomorrow.**

Greotel Amirandes implements garden programs:

- a new model of alternative hotel gardening, avoiding the use of chemical fertilizers and pesticides,
- we plant Mediterranean and local plants in our gardens,
- automatic irrigation system in the evening,

**209 guests participated in Eco – learning programs.**

# SUSTAINABLE ARCHITECTURE & ECODESIGN

Grecotel Amirandes Luxury Boutique Resort | Sustainability Report 2023

Aiming at the preservation and protection of our natural heritage, GRECOTEL focuses on integrating sustainable architecture into its hotels, so that they are fully harmonized with the landscape. The renovated "third generation" hotel (such as Grecotel Amirandes) complexes follow the most modern and sustainable architectural trends, whilst maintaining each destination's special local character, always in harmony and with respect for the local history and people. The idea is that building, landscape and nature merge together causing as less impact on the environment as possible.

# Take Action **With Us**

TOGETHER FOR A GREEN WORLD

No act of kindness, no matter how small, is ever wasted.

During your holiday, **YOU may also help us make your vacation friendlier to our planet:**

- Try to consume energy responsibly and intelligently (Think of the planet).
- Make sure to close the balcony door of your room when the air conditioning is working.
- Maintain your air conditioning unit's temperature 23°C (better system efficiency).
- Use water responsibly.
- Inform us in case of water leakage.
- Reuse body, face, and beach towels.
- Reduce the use of plastic as much as possible.
- Choose to recycle.
- Keep the beach clean.
- Protect animals and their ecosystems.
- Respect and protect the cultural heritage of the local area.

Travel and lodging have the potential to transform our lives into something better. However, travelling results to environmental, social, and economic impacts. All of us at Grecotel Amirandes are committed to reducing this impact as much as possible, but as we cannot do it alone, we would like to ask for your contribution in this challenging task.

The Grecotel Environmental Days are held to celebrate nature's conservation and to inform visitors. A range of exciting eco-activities are organized both within and outside of the Group's hotels, through an extensive program aiming to raise awareness among our guests and educate through plenty of original ideas and participation in innovative research projects.
