

Blood Drive: A gift of life for our colleagues

Once again, through their mass participation in the blood drive held in all Grecotel resorts across Greece, Grecotel Group employees have proven their support and compassion, social awareness, and selflessness that distinguishes them and makes them special members of our great family.

Hundreds of colleagues responded to this year's drive, donating blood to the Group Blood Bank, which was bolstered with an additional 300 units that are available for any emergencies involving Group employees and their families.

This blood drive, launched 20 years ago, is one of the Group's numerous important initiatives undertaken in the spirit of its social contribution to its human resources.

The N. Daskalantonakis-Grecotel Group warmly thanks all volunteer blood donors for their invaluable contribution and participation in this vital effort.
